## NL Kleurrijke zomer

Zomerbollen zijn heel geschikt om de border mee op of aan te vullen. Met hun vaak fantastische kleuren zorgen ze voor mooie accenten tussen het groen en voelen ze zich op vele plaatsen thuis, in elke tuin, groot of klein, in borders of op terras en balkon. Het planten van bollen is al een feest, het resultaat nog mooier. We planten zomerbollen niet alleen voor onszelf maar ook voor de bijen en vlinders. Met onze kennis en vakmanschap willen wij ervoor zorgen dat jij kunt genieten van onze altijd vrolijk bloeiende bloembollen. Zo maken we samen de wereld een beetje kleurrijker voor mens en natuur. En zetten we ons met elkaar in voor een beter milieu.

**JUB HOLLAND "Hofleverancier van kleur"**

## EN Colourful summer

Summer bulbs are very suitable for adding to the border. With their often fantastic colours they provide beautiful accents between the green. In fact, they feel at home in many places. For every garden, large or small, in borders or on terraces and balconies. Planting bulbs is already a party. The result even better. We don't just do it for ourselves. Many summer bulbs also attract bees and butterflies. With our knowledge and craftsmanship, we want to ensure that you can enjoy our always cheerfully blooming flower bulbs. Together we make the world a little more colorful for people and nature. And we are committed to a better environment together.

**JUB HOLLAND "Royal supplier of colour"**

## FR Un été coloré

Les bulbes d'été sont très appropriés pour ajouter à la bordure. Avec leurs couleurs souvent fantastiques, ils offrent de beaux accents entre le vert. En fait, ils se sentent chez eux dans de nombreux endroits. Pour chaque jardin, grand ou petit, en bordure ou sur terrasses et balcons. Planter des bulbes est déjà une fête. Le résultat encore mieux. Nous ne le faisons pas seulement pour nous-mêmes. De nombreux bulbes d'été attirent également les abeilles et les papillons. Grâce à nos connaissances et à notre savoir-faire, nous voulons nous assurer que vous puissiez profiter de nos bulbes à fleurs toujours en pleine floraison. Ensemble, nous rendons le monde un peu plus coloré pour les gens et la nature. Et nous nous engageons ensemble pour un meilleur environnement.

**JUB HOLLAND « Fournisseur de la Cour de couleur »**

## DE Farbenfroher Sommer

Sommerblumenzwiebeln eignen sich sehr gut zur Ergänzung der Pflanzbeete. Mit ihren oft fantastischen Farben sorgen sie für schöne Akzente zwischen dem Grün. Tatsächlich fühlen sie sich an vielen Orten zu Hause. Für jeden Garten, ob groß oder klein, in Pflanzbeete oder auf Terrassen und Balkonen. Blumenzwiebeln zu pflanzen ist schon eine Party. Das Ergebnis noch besser. Wir machen es nicht nur für uns. Viele Sommerzwiebeln locken auch Bienen und Schmetterlinge an. Mit unserem Wissen und unserem handwerklichen Können möchten wir sicherstellen, dass Sie Freude an unseren stets fröhlich blühenden Blumenzwiebeln haben. Gemeinsam machen wir die Welt für Mensch und Natur etwas bunter. Und wir engagieren uns gemeinsam für eine bessere Umwelt.

# All about JUB

## SINDS / SINCE 1910

De kennis en kunde die al vier generaties lang wordt doorgegeven, is de sleutel tot het succes van ons familiebedrijf. Wat in 1910 begon als Jac. Uittenbogaard is nu een internationaal opererend bloembollenbedrijf, onder de naam JUB Holland. Binnen ons bedrijf komen alle facetten van het vak aan bod. Hiermee onderscheiden wij ons van andere aanbieders.

*The knowledge and expertise that has been passed down through four generations, is the key to the success of our family business. What began in 1910 as Jac. Uittenbogaard is now an internationally operating flower bulb company, under the name JUB Holland. Within our company, all facets of the profession are covered. This is how we distinguish ourselves from other suppliers.*

## ONZE EIGEN KWEKERIJ / OUR OWN NURSERY

Het mooie van JUB Holland is dat wij één van de weinige bedrijven in de bollensector zijn die alles zelf doen. We kweken de bollen op onze eigen kwekerij, we veredelen en we handelen. Dit kenmerkt ook onze geschiedenis. Op 35 hectare eigen grond kweken wij 49 soorten tulpen en 16 soorten narcissen, uiteraard allemaal gecertificeerd (MPS A en PlanetProof).

*The great thing about JUB Holland is that we are one of the few companies in the bulb sector to do everything ourselves. We grow bulbs on our own nursery, we breed, we trade. That also characterises our history. On 35 hectares of our own land, 49 tulip varieties and 16 daffodil varieties, all certified of course (MPS A and PlanetProof).*

## NIEUWE SOORTEN / NEW VARIETIES: REMARKABLE

We verenigen graag onze krachten met die van anderen. Daarom zijn wij onderdeel van Remarkable Tulips, een collectief van zeven bloembollenkwekers en -exporteurs dat werkt aan de veredeling en ontwikkeling van nieuwe tulpenrassen. Deze bollen zijn van de allerbeste kwaliteit en hebben een hoge weerstand tegen ziektes. Veredelen vergt geduld, maar het resultaat is het meer dan waard: de mooiste en meest exclusieve tulpen.

*We love to pull our strengths with those of others. That's why we are part of Remarkable Tulips, a collective of seven flower bulb growers and exporters that works on the breeding and development of new tulip varieties. These bulbs are of the very best quality and have a high resistance to diseases. Breeding requires patience, but the result is more than worth it: the most stunning and most exclusive tulips.*

## KWALITEITSPRODUCTEN / QUALITY PRODUCTS

We hebben een sterke reputatie hoog te houden met onze producten. De kwaliteit van onze bollen staat bij ons voorop en we werken samen met beroemde stylisten om nieuwe verpakkingen te creëren. We zijn altijd op de hoogte van de allerlaatste trends.

Al onze verpakte bollen hebben het nieuwe keurmerk 'Sustainable Supplier'. Hiermee laten we zien dat we voldoen aan de eisen van morgen voor hoogwaardige producten die worden geproduceerd en vermarkt met respect voor mens, maatschappij en milieu.

We have a strong reputation to maintain with our products. The quality of our bulbs is our top priority and we work with world-renowned stylists who create distinctive designed packages. We are always up to date with the very latest trends.

All our packaged bulbs have the new quality mark 'Sustainable Supplier of Quality Products' - showing that we meet tomorrow's demands for high-quality products produced and marketed with respect for individuals, society as a whole and the environment.

## LANDSCAPE & KEUKENHOF

Creativiteit is onze kracht, het vergroenen van steden is een internationale trend, waarin JUB Holland een actieve rol speelt (wij maken totaalconcepten). Sterker nog, je zou ons zelfs een trendsetter kunnen noemen: in de jaren 80 ontwikkelden we de bollenplantmachine die razendsnel bloembollen onder gras plant. Onze klanten zijn gemeenten, bedrijven, park- en recreatieafdelingen, hoveniers en landschapsarchitecten in Europa, Verenigde Staten en Canada.

*Creativity is our strength. Greening up cities is an international trend, in which JUB Holland plays an active role (we make total concepts). Indeed, you could even call us a trendsetter: in the 1980s we developed the bulb planting machine which plants flower bulbs under grass at lightning speed. Our customers are local authorities, companies, parks and recreation departments, gardeners and landscape architects in Europe, United States and Canada.*

# JUB & Sustainability

JUB: DUURZAME PARTNER / SUSTAINABLE PARTNER

JUB Holland is een MPS-ABC, Florimark GTP, PlanetProof en SKAL gecertificeerde Sustainable Supplier. We zijn in het bezit van het duurzaamheidspaspoort van NL Greenlabel. Onze MPS-ABC is meer dan alleen een certificaat. Het is tevens een monitoringstool waarmee we aan de juiste knoppen kunnen draaien om onze milieu-impact te verlagen. Daarnaast voldoen we middels ons Florimark GTP certificaat aan de sociale, kwaliteits- en milieueisen en stimuleren we samenwerking binnen de keten.

*Our company is a MPS-ABC, Florimark GTP, PlanetProof and SKAL certified Sustainable Supplier. We also obtained the sustainability passport of NL-Greenlabel. MPS-ABC is more than just a certificate. It is a monitoring tool that allows us to push the right buttons to reduce our environmental impact. Besides that our Florimark GTP certificate meets social, quality and environmental requirements and encourages cooperation in the chain.*

## WIJ ZORGEN VOOR HET MILIEU / WE CARE ABOUT THE ENVIRONMENT

We zijn trots op ons milieucertificaat PlanetProof, dat is ontwikkeld in samenwerking met verschillende milieuorganisaties. Door PlanetProof bloembollen in te kopen stimuleert u duurzame bloembollen productie en ontziet u het milieu! Duurzaamheid betekent voor JUB ook:

- Gebruik van zo min mogelijk chemische gewasbeschermingsmiddelen en bemesting
- Gebruik van groene energie
- Circulariteit staat centraal
- Hergebruik van materialen en gebruik van gerecyclede materialen
- Nieuwe ontwikkelingen betreft milieu nauw in de gaten houden

We are proud of our environmental certificate PlanetProof, which has been developed in collaboration with various environmental organisations. Purchasing PlanetProof flower bulbs encourages sustainable flower bulb production and protects the environment! For JUB, sustainability also means:

- Using as few chemical plant protection products and fertilisers as possible when growing
- Exclusively use of green energy
- Circularity plays a central role
- We reuse materials, use recycled materials
- We continuously keep an eye on opportunities for improvement in reducing the amount of packaging material used

## BIODIVERSITEIT / BIODIVERSITY

Biodiversiteit is een prioriteit voor JUB. De leefomgeving van bijen en vlinders is steeds kleiner geworden terwijl de bijen- en vlinders onmisbaar zijn voor de biodiversiteit in ons ecosysteem. Bloembollen zijn een belangrijke bron van nectar en pollen. Vooral de enkelbloemige zomerbollen trekken bijen en vlinders aan. Let op ons **Bij & Vlinder logo** op de verpakkingen om te zien welke specifieke soorten aantrekkelijk zijn voor bijen en vlinders. We hebben zelfs concepten gecreëerd speciaal afgestemd op bijen en vlinders.

*Biodiversity is a priority for JUB. The habitats of bees and butterflies have become increasingly smaller while the bee and butterflies are unmissable for biodiversity in our ecosystem. Flower bulbs make an important contribution to biodiversity, they are a crucial source of nectar and pollen, especially the single flowering bulb flowers. See our **Bee and Butterfly logo** on the various packages to see which specific bulbs are suitable and attractive to bees and butterflies. We even created special concepts for Bees & Butterflies.*

**Display Help Nature Grow** See page 85. The Happy Bee Mix, the Happy Butterfly Mix and various other mixtures designed in cooperation with the NBV and Buglife.

## BOLLEN VERPAKT IN PCR FOLIE / BULBS PACKED IN PCR FOIL

De verpakte bloembollen (copper verpakkingen, behalve de biobollen) zullen vanaf nu worden verpakt in **PCR folie**.

Dit folie is voor meer dan 90% gemaakt van gerecycled materiaal. PCR staat voor Post Consumer Resource/Recycled. Met dit nieuwe verpakkingsmateriaal zetten wij een volgende stap wat betreft circulariteit.

*The packaged flower bulbs (copper packaging, except the organic bulbs) will, from now on, be packaged in **PCR foil**.*

*This foil is made of more than 90% recycled material. PCR stands for Post Consumer Resource/Recycled. With this new packaging material we are taking the next step in terms of circularity.*

## COMING BACK YEAR AFTER YEAR

Vaste planten zijn belangrijk in de tuin als basis voor de borders waar voorjaars- en zomerbollen kunnen worden geplant. Vaste planten komen ieder jaar terug en nemen jaarlijks in omvang toe.

Perennials are important in the garden as a base for borders where spring and summer bulbs can be planted. Perennials come back every year and increase in size.
